COUNTY WILL NOT LOSE BY ARGEN-TINE BANK FAILURE.

SUPREME COURT DECISION.

SUSTAINS DECREE OF JUDGE ALDEN AGAINST THE SURETIES.

Fourteen Well-to-Do Citizens Will Have to Turn Over to County Treasurer \$30,000 for Ex-

perience of Signing

Their Names.

The supreme court yesterday handed down a decision in favor of the county in the case of George W. Brown and others, as sureties on the bond of the Argentine bank as a county depository, against the board of county commissioners, in which the decision of Judge Alden was sustained. This means that the fourteen bondsmen will have to pay into the county treasury the \$30,000 of the county's funds lost in failure of the Argentine bank. The decision will be thoroughly appreciated by the taxpayers of this county. If the bondsmen had secured a decision in their favor the county would never have recovered any portion of its deposits with the defunct

portion of its deposits with the defunct Argentine bank.

The men who will suffer financially from the decision are George W. Brown, Philip Petry, G. A. Taylor, G. W. Gulley, J. R. Matney, F. W. Dreyer, Bernard Speaker, J. R. Wolf, John F. Steele, R. B. Brown, Joim Wiscoskle, J. F. Barker, William McGeorge and Thomas Barber. The case was bitterly fought by both sides. The county was represented by Attorney J. McCabe Moore, and the bondsmen by Attorneys McGrew, Watson & Watson and J. A. Hale.

G. A. Taylor, one of the surcties on the bend, is now in the county jail awaiting sentence to be passed on him by Judge Aiden. Taylor was cashier of the bank, and was convicted on the charge of receiving deposits knowing that the bank was insolvent.

#### RILEY'S BULLET TAKEN OUT. Allen Sustains the Operation Remarkably Well and Will Soon Have Recovered.

W. N. Alien, who was shot and dangerously wounded on Sunday afternoon, October 24, by C. E. Riley, traveling salesman for the Schmelzer Arms Company, of Kansas City, Mo., submitted to an operation at St. Margaret's liospital yesterday and had the bullet extracted from his back. The operation was performed by Drs. G. M. Gray, H. M. Cornell and J. Y. Simpson, Mr. Allen has regained his strength and withstood the operation remarkably well. The attending physicians state that he will be able to leave the hospital today or to-morrow, when he will be taken to his home on Minnesota avenue.

Riley is out on £500 bend to appear for preliminary hearing in the North side city preliminary hearing in the North side city court. It is said that Mr. Allen is not in-clined to prosecute Riley and it is prob-able that he will be discharged when his case is called.

#### **NEW TRADE JOURNAL.**

#### M. C. Reefer Will Launch the Manufacturers' Journal and Wholesalers' Review.

The Irrepressible, the Indispensable M. C. Reefer has placed himself at the head of a journal devoted to the manufacturing and wholesale trade interests of Kansas City, the publication of which will begin during the present month. In doing this, Mr. Reefer has surrounded himself with such men as J. H. Borders, who will be editor of the paper and will bring his twenty-live years' experience in work on trade papers into use on the Manufacturers' Journal and Wholesalers' Review Wilbur E. Campe, of the Campe Paper and Supply Company, a member of the Kansas City Commercial Club and a manufacturer in the little town of St. Louis on the Mississippi river, and Eugene G. E. Jaccard, the well known jeweler, for many years president of the Jaccard Watch and Jewelry Company of this city.

These tour gratiemen are the incorporators of the Reefer Publishing Company, with a paid up capital stock of \$5.00°, and headquarters in room \$31-32 Ridge building. Their publication, the Manufacturers Journal and Wholesalers Review, aims to afford the manufacturers and merchants of Kansas City an opportunity of creditably presenting the magnitude of the industrial and commercial interests of this city to the world. It will be issued mentally and devoted to the extension of trade, the enlargement of commerce and the encouragement and promotion of manufacturing enterprises in Kansas City.

Mr. Reefer, who heads the company, is an advertisement writer of national reputation. He was a well known citizen of Kansas City years ago, but foolishly tried to better his condition by removing to the village of New York, where he followed the bent of his ability and attained note in the advertising field. He returned to Kansas City last January, and after hearly one year's observation has become convinced that the leng felt want of Kansas City is to be supplied by the Manufacturers' Journal and Wholesalers' Review. He was a tramp printer in the days when tramp printers were popular. In his early life he had the distinction of "sticking" type for Boss Tweed, whom he came to know personally. KANSAS DEPOSITORS OF THE SAFE DEPOSIT AND SAVINGS BANK.

SUPREME COURT DECISION.

ALL PROPERTY IN KANSAS LIABLE FOR CLAIMS OF KANSANS.

Creditors of Institution in Missouri Will Have to Accept, of Returns From Kansas Holdings, What Is Left After Paying Kansas Claimants.

Topeka, Kas., Nov. 6.-(Special.) The long drawn out legal contest between Kansas City, Kas., depositors of the defunct Kansas City Safe Deposit and Savings bank, of Kansas City, Mo., and Assignee Heward M. Holden, of that institution, over the possession of a large amount of valuable property in Brighton Hill, an addition to Kansas City, Kas., ended to-day. The supreme court handed down opinions reversing the common pleas court of Wyandotte county in the suit filed by the assignee to enjoin the attaching creditors from acquiring title and dismissing the ap-

signee to enjoin the attaching creditors from acquiring title and dismissing the appeal, wherein the depositors got judgment for the property. These suits have been bitterly contested. The depositors will now get the property.

When the bank was doing business, it organized several "side issue" companies to enable it to carry on its work, among others the Kansas City Realty Company. After the bank went into the hands of an assignee its depositors attached the Brighton Hill property, which then stood in the nation of the realty company. The depositors clained that the realty company was simply an offshoot of the bank, and that, in reality the bank owned the property. The suit was brought under the Kansas lew which enables Kansas creditors to attach Kansas property of a foreign corporation. The case was tried, and the court held that the attachments were good. When the depositors started to acquire title by sheriff's saic, Howard M. Holden, assignee of the defunct bank, brought suit to enjoin any proceedings along that line, claiming that, as assignee, the title to all property of the bank rested in him, and that it should be used to pay off the claims of all depositors pro rata. Judge Anderson, of the common pleas court, decided the case in favor of the assignee. Both cases were appealed to the supreme court, and to-day opinions were rendered in each in favor of the depositors. The title was Archie Watson et al vs. Howard Holden, assignee, and the Kansas City Safe Deposit and Savings bank.

#### Armorys Stock Yards SCRAPPING IN NEW YORK.

Three Bouts Pulled Off by the Polo Athletic Club in the Presence of Two Thousand People.

New York, Nov. 6 .- There were about 2,000 people at the Polo Athletic Club's boxing souts to-night. George Monroe bested

bouts to-night. George Monroe bested Johnny Johnson in six hot rounds.

Mike Foley, the sailor, got a well earned decision over Nelson Frazier in the second bout.

Sammy Kelly and Patsy Broderick then entered the ring. They were announced to go at 116 pounds, but both were over weight. In the first round, Kelly, by fast and clever work, gained a decided lead. Broderick picked up a lot of lost ground in the fourth by forcing the fighting. In the next four rounds each landed on the head and body, and some very heavy counters ensued. Kelly's blows were straight and frequent, while Broderick's were more forceful, though less frequent. At the close of the ninth round Broderick was pretty well marked up, while Kelly did not show a scratch. Kelly sent his left frequently to the face in the next round and started the blood flowing afresh from Pat's nose, but Broderick several good ones on Sammy's face. Left and right uppercuts from Kelly were the features of the twelfth round, at the close of which Broderick came up amazingly strong and forced the fighting, which surprised Kelly. The latter was very tired and kept on the defensive

all the time. Broderick had not strength enough to keep up the pace and the round ended with Kelly guarding his face. Broderick bled ecplously from the mouth in the fourteenth and rushed at Kelly, landing on the body over the heart with both hands. Kelly kept shoving his left in the face and chin and Broderick sent over three swings on the side of Kelly's head. They lacked steam and did very little damage. Both boys came up gamely in the fifteenth and last round. Each of them showed the weakening effects of their efforts and neither had strength enough to land a telling blow. land a telling blow.
The referee declared Kelly the winner.

San Francisco, Nov. 6.-The feature of to-day's racing at Ingleside was the Golden West stakes for 3-year-olds and upwards, West stakes for 3-year-olds and upwards, at a mile and a half, worth \$1,000 to the winner. Marquise, the crack filly of the Timmons & Marks' stables, who was installed favorite, never left the issue in doubt. She trailed behind the leaders under a strong puil until a furlong from home, when she came through and passed under the wire two lengths to the good. Captain Piersall and Marquise were the winning favorites, second and third choles dividing the remainder of the events. The weather was cloudy and the track heavy. Summarles:

#### POOLING LAW WOULD SAVE.

ONLY SALVATION IN SIGHT FOR WESTERN FREIGHT LINES.

Have Given Up Hopes of Securing Maintenance of Rates and Will Make a Pilgrimage to Congress at Next Session.

Chicago, Nov. 6.-Freight traffic officials of the Western roads have given up all idea of having rates restored to a normal basis in the near future and the officers of the Eastern lines are about of this opinion. It is generally conceded that as long as there are so many roads on the outside of the associations that there is very little prospect of the rates being put upon a basis where they can be maintained for any length of time. Many of the traffic men say that the only salvation for the roads is the phasage of a pooling law by congress at its next session. Without this they say that it is impossible for them to maintain rates. With all of the roads in a pool they claim that they will be able to keep to the tariffs much better than they are able now to do. The present state of demoralization in freight rates doubtless means that there will be a hard fight for the pooling law when congress meets again.

#### REPORT OF UNION PACIFIC.

Government Directors Show the Property Is in Good Physical Condition.

Washington, Nov. 6 .- The report of the Railroad Company for the fiscal year just ended has been submitted to Secretary Bliss. A summary follows: The physical condition of the railroad

ontinues to show marked improvements both in the character of the roadbed and in the condition of the equipment. During the year 1895, 7,500 tons of new steel rails have been added to the track and during the cur-rent year (1897), 17,000 additional tons have been purchased and are now being placed upon the roadbed. The eastern portion of the Union division is being sthoroughly bal-lasted, and the property from Omaha to the neighborhood of Grand Island, 174 miles, will compare favorably with many of the first-class Eastern railroads. The earnings and expenses of the Union Pacific railway proper (1,822.29 miles) for the twelve months ended June 30, 1897, and 1896, respectively, follow: both in the character of the roadbed and in

ended June 30, 1857, and 1896, respectively, follow:
Gross carnings, \$14,944,477 for 1897, increase \$861,129; operating expenses, \$9,443,155 for 1897, increase \$877,213; surplus, \$5,501,321 for 1897, increase \$183,915; taxes, \$573,640 for 1897, decrease \$8,089; surplus earnings, \$4,927,681 for 1897; \$4,735,657 for 1896, increase \$192,005.
The report goes into detail as to proceedings that led up to the recent sale under foreclosure, and, under date of September 4, says from the then expected realization from the foreclosure sale of the railroad property and of the sinking fund of \$45,754,659, it would follow that the loss of the United States will be about \$25,000,000.

He says the securities of the London market and much sought after by investors. The issues of stock and bonds

investors. The issues of stock and bonds he disposed of there for the different systems were sold directly to investors and not put out through an issuing house. The profits were divided among the holders of the securities and the fact that all holders realized part of this profit has given the securities a great popularity among small investors.

Mr. Taylor is accompanied by Douglass J. Neame, of London, who will go with him over the line of the Pittsburg & Gulf to Port Arthur. They will leave Monday evening and when they return they will go to Omaha and inspect the line of the Omaha, Kansas City & Eastern. Both are quite hopeful of great returns from the carrying trade to Southern ports and believe that is to be the big item in the business of the Stillwell system.

#### Pleased by Eastern Merchants.

Pleased by Eastern Merchants.

Chicago, Nov. 6.—All the leading railroad men are greatly pleased at the stand taken by the merchants of Chicago and New York against the ticket brokers' associations in both cities, they having declared that it was better to do business with the roads direct than with the scalpers. The railroad men say that this action of the associations in both cities by the leading merchants shows that the trend of sentiment is coming their wa at last, and that it will ultimately result in the abolishment of the broker. If the low rates that the roads in the West have made for merchants who desire to visit the commercial centers for the purpose of purchasing their goods shall have the effect of doing away with the brokers even in a small degree, the roads will feel that they have made a great deal of money by making the low rates for the business men.

Fight to Change Geography.

Fight to Chauge Geography.

Chicago, Nov. 6.—The Western roads are, from now on, to make a struggle for their business from Colorado. They claim that the low rates made by the Southwestern roads have taken from them to the Gulf points a large amount of traffic and the reductions made yesterday are but the first of a series, if they find it necessary to make deeper cuts for the purpose of keeping their business up to the amount that it was before the Southwestern roads began to cut into it by means of their low rates in connection with the steamship lines from the Gulf ports to New York.

THE NEWS AT LEAVENWORTH.

detropolitan Police Stories From Topeka Cause a Stir-Treasurership Case Still Unsettled.

The report that Governor Leedy contemplates abolishing the Metropolitan police system is causing considerable consternation among its supporters in this city. In its abandonment they see the turning over of all political offices in the county to the Republicans, for it is conceded that without Republican votes not a single Democrat could be elected to office in this county. The honest sentiment of the city is against the Metropolitan police system and it has been denounced time after time by Republican county conventions, but the system is upheld by the Democratic party. With this system the Democratic party believes it can maintain its power in local affairs, but the recent election has demonstrated the fallacy of that belief, and as a consequence the leaders are now sitting on the anxious seat awaiting the governor's decision upon the matter. Yesterday one of the members of the board, in conversation with The Journal representative, said that he hoped that the governor would abolish the system in this city. Howas in favor of the entire system being wiped out and said that he would like to see the prohibitory question again submitted to a vote of the puple.

This member of the board is a prominent business man and, according to his statement, the office is productive of more harm than good to him. He stated that it had been the cause of allenating a number of his friends and that he had been compelled to submit to unmerited abuse. He believed that the system was productive of evil in any community and would hall with delight its abolishment.

This sentiment is voiced by a large majority of the taxpayers, who believe the system to be a source of official corruption and one which tends to lower the morals in the community. However, it is generally believed that the governor will think twice before he acts and that he will not do away with the metropolitan police system. plates abolishing the Metropolitan police system is causing considerable consterna-

City Treasurership Case.

Attorneys in the city treasurership contest have returned from Topeka, where they appeared before Judge Doster in the interests of their clients. The case did not come to trial in the supreme court, and the probabilities now are that no decision will be arrived at this year. It was found that this case was the last on the docket, and that the judge could hear no arguments yesterday. He agreed to permit the attorneys to submit briefs in the case, which he would try and consider before the December meeting of the court.

The case was started in the surreme court by a petition from Mr. Beeler, to oust Mr. Fenn, the present treasurer, who refused to surrender the office. He based his refusal upon the grounds that the bond presented by Mr. Beeler was not a good one, and was virtually a straw bond. Mr. Fenn filed a demurrer to this petition, alleging that the petition did not contain sufficient facts to make a case. Should the demurrer be sustained. Mr. Fenn will hold office until the present term is ended, two years after the period for which he was elected. Mr. Beeler's attorneys urged upon the supreme court the necessity for an early decision, and argue that Mr. Fenn is holding the office without proper bond.

Spring. It was at first thought that the tracks could be torn up as far west as Mc-Cormick place, but it is expected that the ratiroad company will take advantage of every technicality, and on two streets the road runs under instead of over the streets, as provided in the charter.

The draft of the ordinance is long, containing several sections. It recites that the road was granted a franchise under certain conditions, and that those conditions have been violated. The conditions of the franchise are recited in full, with the obligation of the company in its acceptance. It declares that under the present conditions the tracks of the Afr line are a nuisance, for which reeson the commissioner is ordered to remove them from the streets.

That the railroad company proposes to fight is certain. Many Independence people believe that if the proper steps are taken the bondholders of the road will apply for a receiver and have the line operated in accordance with the terms of its franchise.

Improving Lexington Street.

Improving Lexington Street.

The city proposes to bring Lexington street to a more uniform grade. Sidewalks which have been on stilts owing to the topography of the street were taken up yesterday and earth taken from Maple avenue illied in. In a number of cases the back lots of property owners are thrown below grade and, without culverts, pools of water will form and cover quite an area. The city will have to take care of this water, it is said, and where property owners request are filling up the lots as well as the streets. Street Commissioner Monroe is making a clean sweep of the entire street and the new grade improves the street considerably.
